Artsy Alphabet

Instructions:

1. Draw the outline of each letter of the alphabet on pieces of paper.
2. Let your child fill in each letter with things that start with or represent it.
3. These pages can be hole punched and tied together with a ribbon to make an alphabet book.

This is a great opportunity to recycle materials laying around the house. Think "B" for buttons, and "C" for cardboard or crayons, and use up all the broken pieces!
