Copier and Printer Service & Toner Specification
April 14, 2017

- 1.) Are you looking to replace the Canon 2525s and Canon C2525s for new devices, or just service on these copiers?
Answer: There is no plan to replace the Canon copiers. We are ONLY looking for services and parts for this equipment.
- 2.) We know you're looking for MPS on the remaining printer fleet, but are you open to alternative devices to replace the older HPs, which will also be more cost effective?
Answer: We ask everyone to provide quotes specific to the RFP. If you have a more cost effective solution, please include it as an alternate solution.
- 3.) You provided End Meters for all devices. Do you have a report, which shows average monthly volumes?
Answer: The annual volume is listed below.
- 4.) Do you have a preference for OEM or Aftermarket or do you wish to see both rates?
Answer: Please provide both rates as specified in the RFP.
- 5.) Do you have an install date for any of the devices? We can estimate the HP fleet very easily based on model numbers, but the Canon devices are a little trickier. Or on a closely related question, if you do not know the age of each device, do you know the average monthly or annual volumes for the devices? Not knowing the exact details will not prevent us from bidding, but it will provide a better discount if we can determine the annual volumes of the fleet.
Answer: Yes, listed below.
- 6.) We were wondering if your team has monthly volumes or acquisition date on each piece of equipment. The monthly volume will help us determine maintenance rates.
Answer: Yes, listed below.
- 7.) Term of MPS contract desired (12-24-36-other).
Answer: Term desired is 36 months.
- 8.) Pricing locked for term, or unlocked.
Answer: Locked.
- 9.) Since you aren't replacing the Canons, we would not be able to service those machines. However, we have a great program in servicing your desktop HP's. Can we bid on the desktop HP's only for your Naperville locations?
Answer: Unfortunately no. We ask everyone to provide price quotes on all the equipment including the Canon copiers.

Equipment Data:
